Chair of Members

I had a long career in the IT industry. I have worked in the field of Education for many years (including as Head of Education Relations for Microsoft); my proudest moment was getting computer science added to the curriculum.

As a governor, I focussed on supporting the school around strategy & planning (which is unglamorous but very important) as well previously being link governor for the Science Faculties and the Sixth Form. I am a former student of St Bart's along with my brother and sister and my three children have all studied here. It's therefore a real honour to be a governor at a school that has formed such an important part of my life.

Original Signatory

I have been closely involved with St Bart's since 1995, joining the Parents' Association when my eldest daughter started in Year Seven. After three years chairing the PA, I joined the Governing Body as a parent governor in 2000. I was elected Chair of Governors in 2011, when we were making our transition to Academy status – with the additional freedoms and responsibilities that brought.

I am a civil engineer, with most of my career spent in the planning and management of major infrastructure projects, such as Hong Kong's Mass Transit Railway and the high speed rail link from London to the Continent. My professional experience was put to the test in helping deliver the new state of the art school which now sets a firm foundation for the education of future generations of St Bart's students.

Ian stepped down as Chair of Governors on 5th January, 2020 and as a Trustee on 10th November, 2020.
