## ECO COMMITTEE

Before Half Term, we had a fantastic session making plans for environmental action this year around school. We began by introducing ourselves and immediately made some exciting new plans for environmental action this year. Our focuses include food, trees, waste and traffic.

For food, we are planning on researching the environmental impact of the food in the canteen and developing a traffic light system. We are looking at developing a school map of the numerous trees as an emphasis on what we have to be proud about and have discussed a tree planting initiative. We are also considering a trip to follow the school's waste and we are hoping to follow up the research on air pollution as part of an investigation which began last year. We have just set up an Instagram page ([@stbartseco](#)) and have another meeting on the 22 November in C117 at 3.20pm. If any of those ideas interest you, please come along!

## YEAR 11 WATCH “UNACCEPTABLE”

On Wednesday 12 October, Year 11 students watched a Personal Development related performance. It was delivered by Alter Ego Creative solutions. “Unacceptable” is a project raising awareness, kick-starting conversations, and promoting cultural change around Sexism, Sexual Harassment & Sexual Violence. The performance used simple storytelling to deliver the content. A high energy delivery at the start, calmed down into thought-provoking real-life stories. These stories also covered definitions and how to respond to or report these types of behaviours. This leads in well to what Year 11 will be covering the Spring Term in PDP lessons.
