## ARMY AND RAF FIELD DAY

**9 June 2023**

86 cadets, supported by staff, attended this event at Bramley Training Area, near Basingstoke.

The RAF spent the morning on various fieldcraft activities, in particular, establishing a harbour area, undertaking a recce patrol, the aim of which was to identify 20 individual items en route, and cooking in the field. Following lunch, they completed a lengthy orienteering course which covered much of our allocated area.

The Army also spent their day on many of the fieldcraft activities specified in the Army syllabus, patrolling, cam and concealment, hand signals, types of movement (for example). The undoubted highlight for many was their first opportunity to fire blank ammunition in an ambush situation, an activity that generated both anticipation and excitement.

## SUPPORTING OUR COMMUNITY

On Tuesday 2 May, two students from St Bart's volunteered their time within the local community. Teddy Brennan and Luca How, from 8P2, helped run the Thatcham Baby Café in the Bluecoat School. Luca and Teddy set up the play area, made tea and coffee, gave out cakes, and played with the young children. This is a wonderful example of how our young people at St Bart's are making a positive difference to the community. We will also be volunteering at Falkland Primary School's Summer Fete on Saturday 24 June to help the PTA raise money for the school. If you know of any other organisations or charities that would like some help with a local community project, please get in touch with Miss Marshall, Stretch and Challenge Leader.

## GOVERNOR RAISING FUNDS FOR MENTAL HEALTH CHARITY

On July 1, St Bart's Chair of Governors, Catie Colston, will be taking on the Magnificat Tour cycling challenge to raise funds for Time to Talk. Catie will be cycling an incredible 111km through some of the beautiful landscape (and hills) of West Berkshire. This is about twice as far as Catie has ever cycled in one go, so a real challenge. It's also the second time she has taken to her bike to raise funds for Time to Talk, a West Berkshire charity that delivers flexible confidential mental health and emotional wellbeing support for young people aged 11-25 and their , including St Bart's students and their families.

## KEEPING BART'S CLEAN

We love this photograph captured last week by Curnock House Manager, Mrs Hamblin, of external cleaners scaling the St Bart's Hub canopy to complete the structure's annual clean. You certainly need a head for heights for this cleaning job and students and staff had great fun spotting the silhouettes of the intrepid cleaners throughout the morning. Normally the clean takes place during the school holidays, whilst everyone is enjoying their summer break, and so it is a great reminder of the many tasks that go on behind the scenes by many of our support teams to keep the school in great order.

## LIBRARY REQUEST TO SCHOOL LEAVERS ABOUT TEXTBOOKS

Now that we are approaching the end of this academic year, we would like to remind parents that your child's textbooks, library books and laptop (if they have one) should be returned to the Library by Friday 23 June 2023, at the latest. Of course, students will still be using these resources to complete their studies, but please can you ensure any resources belonging to school are returned once students have completed their exams. Please can students hand them to a member of the Library staff so we can check that your account is clear. Many thanks for your help. Students can come and speak to us in the Library if there are any questions or concerns.

# What Parents & Carers Need to Know about

# OMETV

## WHAT ARE THE RISKS?

OmeTV is another app which encourages users to 'make friends from all around the world'. People can search profiles by age and gender and send direct messages or photos. However, the app is primarily used for video calls. When using this feature, users are connected at random, although only their country of origin is shared. People can then either choose to move on to the next chat or can stay in that call for as long as they wish.

## STRANGER DANGER

While young people generally know not to share personal information with strangers, the safety of their home and the distance offered by technology can make them feel more relaxed and uninhibited. Combined with the fact that OmeTV provides a webcam function – and anonymity – it can be an easy way for groomers to gather information, ask to connect on other social media platforms, or potentially request intimate images.

## EXPLICIT CONTENT

Unfortunately, there are a lot of users who use OmeTV's webcam feature to expose themselves. While users can swipe to the next call quickly, it's not something that can be filtered out completely – so young people could easily be exposed to highly inappropriate images.

## REPORTING DIFFICULTIES

When video calling, the other person's username is often hidden and therefore they can't be blocked or reported. There is a 'Report Abuse' tab at the bottom of the video, but the speed with which calls can swipe past can make it difficult to use this system. There's also little evidence to suggest that offenders are dealt with appropriately (through warnings or account termination, for example).

## AGE VERIFICATION

17+

Although the site states that users must be 18 or over, there's no way to verify this, and it's easy to use an existing Facebook account to log in, or for users to set up a fake account. To access OmeTV, users simply need to press a button confirming they're an adult, which means it's likely many users will claim to be much older than they are.

## VIDEO RECORDING

REC

When young people are chatting live on a webcam, they could be coaxed by others into doing things they don't feel comfortable doing, or persuaded that no harm can come from it. What they don't know is whether the other user is recording them. These videos could then be used to embarrass or blackmail them, or they could be kept by a potential online predator.

## LIMITED PARENTAL CONTROLS

OmeTV has very limited parental controls. There is a 'safe mode', but this is of little practical use given that explicit content isn't filtered out. While the site lists several rules and regulations, there are few apparent ways to enforce them or restrict what users can see or do.

## Advice for Parents & Carers

### FOLLOW AGE GUIDELINES

OmeTV has an age recommendation of 18 and over, which suggests the developers are aware that it may facilitate adult content. It's important to adhere to the age guidelines and try to restrict access to the app for younger users. If you find it on an under-18's device, talk to them about the potential risks and explain why they probably shouldn't be using it.

### DISCOURAGE CHATS WITH STRANGERS

Remind your child of the dangers of talking to strangers online. The anonymity OmeTV offers, plus its webcam function, makes it an attractive place for groomers to network and create inappropriate content. Explain that your child may see something which upsets them – and that it's a crime for anyone to expose themselves to a young person online.

### DISCUSS THE DANGERS

Maintain communication with your child about online safety and empower them to protect themselves. Simply deleting an app from their device impacts their independence and can cause resentment. Instead, highlight news reports of predators exposing themselves to children on the internet, and discuss what they should do if asked for explicit images.

### ENABLE PARENTAL CONTROLS

Regardless of how responsible your child may be, it's essential to use parental controls on their device. It's easy for young people to get lured in by others, feeling they've built up a trusting friendship and being coaxed into doing things they wouldn't normally do. Ensure in-app purchases aren't enabled on their device, and emphasise that they can always talk to you about anything online that worries them.
