DUKE OF EDINBURGH AWARDS

Congratulations to 42 Bronze, 7 Silver and 3 Gold Duke of Edinburgh award winners. Students have been busy participating in a variety of activities including volunteering in their local community, gaining new skills in a variety of fields from languages to science, and participating in sporting activities. The DofE participants also completed a self-sufficient expedition, which involved them carrying all their food, tents, stoves and personal equipment for the two or three-day expedition and navigating themselves to check points and their campsite. They should all be very proud of their accomplishments.

If a student was not in school on the DofE presentation day, they can now collect their Bronze or Silver certificate and badge from Reception. The Gold DofE students have the honour of collecting their certificate and badge at a presentation in Buckingham Palace.

Congratulations to all the students who have completed their awards...

SESTRIERE SKI TRIP 2025!

This year's school ski trip to Sestriere was an unforgettable experience for 51 students, with over half of them being beginners who had barely, if ever, skied before. Despite this, every single student made remarkable progress, mastering the slopes and successfully navigating the chair lifts to explore the stunning 'Milky Way' pistes. It was incredible to see how much they achieved in just a few days.

The trip wasn't just about skiing – students enjoyed delicious real Italian pizza, went ice skating under the stars, and warmed up with a fun-filled hot chocolate and crepe night. The excitement peaked when the group had the opportunity to watch the Sestriere Ski World Cup, a thrilling spectacle that added an extra layer of adrenaline to the trip.

A group of students summed up the experience perfectly, saying, "It was an amazing trip. We would definitely recommend it to other students." On the final day, we celebrated the students' achievements with a fun awards evening, highlighting their growth and efforts throughout the week. The students also got creative with fancy dress costumes, bringing an extra element of fun to the trip.

The entire group had a blast, and we can't wait to run another trip. Huge thanks to all the staff, students, and everyone involved for making this adventure so memorable!

[Return to contents](#)

OUR OXBRIDGE SEVEN

We're delighted to announce that seven of our current Year 13 students have secured offers to study at either Cambridge or Oxford University.

From Cambridge, Charlotte Robertson has been offered a place to study Music and Eleanor Prescott has been offered a place on an Archaeology course. Eva Clift is set to study Classics at Oxford, Imogen Ciochon – Experimental Psychology, Charlotte Lethaby – Law, Eve MacLeod - English Language and Literature and Astrid Wilson-Gignoux has been offered a place to study English and Beginner's Italian. All these students succeeded in the rigorous and highly competitive entry process of tests and interviews for their College or University of choice.

Mr Owen, Co-Head of Sixth Form, says, "It's been an absolute pleasure to work alongside a cohort of talented, hardworking and dedicated students of whom we are incredibly proud. Each of these applicants demonstrated exceptional determination with their application and preparation for interview, resulting in their well-deserved success. Whilst the Sixth Form team offer specialised support, which utilises the guidance of teachers and external specialists, these offers are mostly down to students' hard work and attitude. We look forward to hearing about their future successes."

The majority of Year 13 students at St Bart's have been applying to universities and higher education courses through the UCAS system, with over 250 applications made by students to date. The Sixth Form enrichment programme is designed to support all students in their post-18 choices. Alongside assemblies and workshops by university outreach staff, those applying for competitive apprenticeships receive tailored advice and support on research and applications. In recent years, there have been a number of students successfully securing offers on apprenticeships with companies including Airbus, AWE, KPMG, Newbury Building Society and Vodafone. As [reported recently in BartholoNews](#), Seb Chapman is one such current Year 13 about to embark on a Level 7 degree apprenticeship programme with KPMG in September.

CURNOCK AND PATTERSON HOUSE EVENING

It's time to play the music, it's time to light the lights...! Our annual Curnock-Patterson House Evening was back for its annual shindig before half term, and with over 30 acts performing, it really was a night to remember. With talent in abundance, our audience enjoyed a variety of acts, including singers, dancers (tap, Irish and street), comedy, music, and, of course, the annual ridiculousness that is the Staff Sketch (Gladiators this year, and yes, we had foam fingers!). Much fun was had on the night and over £1000 was raised on the night for both House charities, Newbury Cancer Care and Guide Dogs! We'd really like to thank all students who performed or helped out on the night (shout out to Mr Weller and the amazing Tech Crew!), the staff and the PA who gave up their time to help, and of course, all you lovely people who came along and supported this event. We could not do it without you – THANK YOU! Until next year! PS we have unclaimed raffle prizes in House Office, so bring your tickets along and see if you've won!

The Parents' Association were delighted to provide a bar. Thanks to everyone who volunteered and supported the event. We look forward to seeing lots of parents at the up and coming [PA Quiz and Chips](#) evening on the 21 March. [Click here to buy tickets.](#)

[Return to contents](#)

BRITISH SCIENCE WEEK BACK WITH A BANG!

British Science Week is a ten-day celebration of science, technology, engineering and maths that takes place from 7-16 March 2025. This year the theme of the week is 'adapt and change', and St Bart's are joining schools around the country to raise awareness, spark enthusiasm and celebrate science.

St Bart's Science faculty have been busy organising activities for the students over the course of the coming weeks. On Monday, Year 7 enjoyed the traditional Whizz Bang assembly with Head of Science, Dr Alonzi. There were explosions, jelly beans, hair-raising experiments and much more! [See our website for the videos.](#) All students are welcome to another chance to see a thrilling Whizz Bang show during Activity Time on Friday 14 March.

As British Science Week coincides with National Careers Week, Year 7 are also looking at science careers in their lessons. Mrs Woodgate will be holding a fascinating Full Pheasant Dissection, with an open invitation to all students, and Dr Costambeys will be running a 'design a lab coat' competition and challenging our Year 7, 8 and 9 to get creative. Students can collect a template from their tutors and there are prizes to be won. Dr Costambeys will also be choosing the best to be entered for the national competition.

Next week sees the return of the House Science competition on Wednesday 12 March, when student teams from each House will battle to solve a series of practical science tasks and solve some tricky scientific puzzles. Last year, Patterson won the battle to design, build and trial a device to accurately measure 1 minute. We look forward to reporting on the 2025 tasks and winners in an upcoming BartholoNews.

[Return to contents](#)

BRILLIANT CLUB GRADUATES

During the Autumn Term, students from Years 8 and 9 took part in the scholarship programme that was run by [The Brilliant Club](#). Students learned about different topics in a series of university style tutorials led by a PhD tutor in their specialist field.

Here's what Tejas Heejebu (9C2) said, "At the start of the year we were introduced to our PhD tutor who told us more specifically about the course we would be studying, which was 'Protecting genetic information and confidentiality: The challenges ahead'. We had 5 tutorials, which were each about different topics that could have been the main points of the essay we were going to write at the end of the programme.

Tutorial one was about 'Medical privacy', the second was about 'Freedom of the press', the third about 'Informed consent' and the fourth about 'Genetic information and confidentiality'. Our fifth one was preparation for the essay we were going to write over the Christmas holidays. We picked one of the topics and used it for an ethical dilemma argument. I did mine on 'Freedom of the press'. After the Christmas holidays we got our results back in university grades and went on a trip to Christchurch College in Oxford University. Overall, it was an amazing experience."

The photos are from the graduation day in the week before half term where students went to celebrate their hard work and dedication throughout the programme. They all did incredibly well and every student achieved either a 2:1 or a 1st, which is outstanding. A huge well done to everyone!

[Return to contents](#)

Mr Hill

'THE 39 STEPS' THEATRE TRIP

On the 25 February, we went to Salisbury to watch the chaotic comedy 'The 39 Steps' which follows the dramatic escape attempt of Richard Hannay after he is accused of murder as he desperately attempts to discover what the 39 steps are.

The play consisted of four actors multi-rolling as all the people he meets along the way. I really enjoyed the use of sets. They used them very effectively to catch the audience off guard with comedic effects such as using puppets to represent the characters. All the actors played their roles incredibly well and there was a lot of interaction with the audience, which really allowed us to feel immersed within this story and journey of the characters. It was really nice having the chance to attend an event like this with school and laugh with classmates and enjoy a great night out at the theatre.

NATIONAL CAREERS WEEK

This week is National Careers Week, focussing on careers guidance and resources in education across the UK in order to support young people to develop awareness and excitement about possible pathways.

During this week, we also wanted to share with you the recent experiences of our Year 13 Business BTEC students who have recently all spent a week on work experience. Preparation for, and completion of, the week placement supports one of the Business BTEC assessed units. Students are also required to review their placement, evaluating the ways in which work experience supports future career aspirations.

The placements are organised by the West Berkshire Education and Business Partnership, who conduct interviews with the students to identify their career interests before identifying a suitable placement. Our Year 13 were supported by some brilliant local organisations including Arlington Arts, Berkshire Renewable Energy, Charter Travel, Group 1 Ford Automotive, Honesty Group, Jones Robinson, Kerridge Commercial Systems, Natwest Bank, Reading, Spurcroft Primary School and Wokingham Waterside. Thank you to everyone who has supported these important placements.

This is just some of the great feedback from our Year 13s:

"I thoroughly enjoyed my work experience at Group 1 Ford in Newbury. During my time there, I made several account reviews appointments, which allowed me to learn the ins and outs of the business. Additionally, I enjoyed the social interactions and built relationships within the team. Their appreciation for my efforts led to an exciting offer for a role as a trainee and then a sales executive once I leave school! I had a very positive experience at the dealership and it helped confirm that is what I want to do once I have left Sixth Form." - Josh

"I went to Spurcroft Primary School for the week for my work experience, which I really enjoyed. I spent the week with a mixed Year 3/4 class called Beech class. I observed the teacher and helped children to plan stories, understand fractions, learn about the digestive system and make models in art. I also listened to them read. On top of helping out in the classroom, I also supported preparation of lessons, made a display and put up children's work. My favourite thing that I did during the placement was working with children to understand each lesson. I found this very rewarding especially when children started to understand things which they had previously found difficult and were proud of. Overall, I really enjoyed my time at Spurcroft and this has helped me to understand what I would like to do in the future." - Ellie

"I felt very welcome at the Honesty Bakers and Makers. I was working in both the bakery and kitchen to allow me to experience both sides of the production. I found it interesting being on the other side of the business and seeing what the customers do not, and how the food is then taken to the different coffee shops and sold. I took on many tasks during my work experience including making many different types of sandwiches, 8kg of coleslaw, soups and sausage rolls all in the space of two days. In addition, in the bakery, making a range of cakes and treats, one of the tasks is to crack 200 eggs and make different types of icing. The workers made me feel like part of the team and valued during my week." - Mollie

"I went to Jones Robinson in Newbury, which is their lead office in the UK. I got the chance to see how the work of each department, from admin to marketing and sales, work together to produce a seamless experience for clients, which I found particularly fascinating. I also enjoyed speaking to colleagues about their career, which helps shape ideas of mine. Overall, it was a beneficial and good experience". - Freddie

"I enjoyed talking to the teams of people at Kerridge Commercial System. I was able to help fix bugs in the code and complete testing which is something I am very interested in. Overall I thought it was an amazing experience." - Ashton

The events we will be running for students to celebrate National Careers Week include:

- Look out for posters on classroom doors – you might be surprised by the former careers of some of your teachers!
- A careers quiz. The link to the quiz will be in the student briefing. There will be a prize.
- A display of information posters and resources in the school Library for students to explore.
- The Careers Adviser, Charlotte, will also be in the Library on Thursday lunchtime for a drop-in session for any year group.

On 19 March, another Destinations Fair is also coming to St Bart's. This time for our Year 12s, which will be happening on 19 March for all Year 12 students. Organisations confirmed as attending include AWE, Barratt Homes, Basingstoke College of Technology, Gardner Leader, Jones Robinson, Kerridge Commercial Systems, NHS Radiography, Oxford Brookes University, Portsmouth University, Reading College, Royal Holloway, University Centre Newbury, University Centre Sparsholt, University of Reading, University of Winchester and Vodafone. **If you work for, or know of, a post 18 provider who would be interested in attending, please contact dseward@stbarts.co.uk**

[Return to contents](#)

WORLD BOOK DAY

World Book Day is tomorrow (Thursday 6 March). The celebration encourages students and families to find the fun and enjoyment in reading, because reading for pleasure changes lives.

At St Bart's our World Book Day "theme" is Book Recommendations. All week we have been encouraging staff and students to submit their book recommendations, in order to both share their love of reading and be entered into a raffle to win a gift token! Staff will also be displaying the books they are currently reading in their classroom and we are sure this will open up some good book discussions. During the week we will be handing out World Book Day tokens to our Year 7, 8 and 9 students. These can be exchanged for a free book at a large number of [participating retailers](#) and we of course encourage students to make use of these.

Students have also been on the lookout for our 'Perfect Pairings'. Selected staff have been wearing badges with the name of a book character and students need to find the matching pair – whether this is a romantic pairing, a pair of friends, a professional duo, or a character and their nemesis! Those students who match the most and can correctly link to the book title are also in line for a prize. The final completion on offer is our annual bookmark competition. Students can grab a template from the library and submit their design. The best will be printed for students to take home from the Library and for use in our Tutor time reads.

Finally, this is a great moment to mention that we recently wrote to Year 7 and 8 parents about a visit from [Ele Fountain](#), the author of a number of books for children, including 'Boy 87' and 'Melt'. We are delighted that Ele

will be coming to school on Thursday 20 March to speak to all Year 7 and 8 students, as well as to sign copies of 'Boy 87' in the Library during afternoon tutor time.

Happy World Book Day everyone and keep reading!

[Return to contents](#)

10K FOR HOUSE CHARITIES

The Newbury 10K will take place on Monday 26 May. Last year a group of staff ran and raised over £2000 for the House charities – **Newbury Cancer Care, Swings & Smiles, Mencap and Guide Dogs.**

Members of the school community (staff and students) can donate on their personal [Parent Pay](#) account, but if you would like to share with someone who doesn't have a parent pay account, they can donate using this link

[Donate today!](#)

1. Scroll down to **Newbury 10K** add donation
2. Go to basket.
3. When given the option for 'Child Name' and 'Year and Class', please type 'Newbury 10K' for both.

Thank you very much.

Mr Langton

[Return to contents](#)

MAKING A DIFFERENCE

Sixth Form Discusses Sustainable Future at St Bart's

In a recent assembly for our Sixth Form students, we explored the power of community in creating real environmental change. Drawing inspiration from Mikaela Loach, a prominent climate activist, the central theme of the session was the idea that significant change often happens beneath the surface—just like the mycelium networks that sustain forests. These hidden, interconnected networks work quietly yet powerfully to support the ecosystem, much like how small lifestyle changes, community efforts, and activism contribute to tackling climate change.

We discussed how progress may seem slow, but each of us has a vital role in the growing movement for a more sustainable future. It's important to remember that while individual actions are important, they alone aren't enough. We must come together as a community to create meaningful change. Imagining the world we want to live in, understanding the issues, and then taking action—whether big or small—is the way forward.

To bring this vision to life, students are encouraged to get involved in **Greenfest**, a local sustainability festival happening right here at St Bart's on **5 April 2025**, from 10.30am-3.00pm. This event, run entirely by volunteers, promises to be an inspiring, interactive and fun experience, focusing on making a positive impact on nature and climate in West Berkshire and beyond. The festival will feature music, crafts, cooking demonstrations, nature-

inspired activities and an opportunity to connect with local environmental groups and like-minded change-makers.

It's a chance to not only learn but also to take active steps towards a sustainable future. Whether you're interested in volunteering or attending, Greenfest offers a space to build lasting relationships and support networks to continue making a difference long after the event. Let's come together as a school community and make a real impact!

[Return to contents](#)

YEAR 9 VACCINATION DATE CHANGE REMINDER

A reminder that, as per recent letters home, the Year 9 Vaccinations (Meningitis ACWY and Tetanus, Diphtheria and Polio Booster) have required a date change to **Tuesday 1 April (from Friday 28 February).**

For those who have already completed the consent form - thank you. The form will still be valid for Tuesday 1 April. All parents/carers are requested to complete the form, whether their child is to be vaccinated or not. **It is essential that the consent form is completed with either a YES or NO.**

Your child should wear either a short-sleeved shirt or their school PE short-sleeved polo shirt on the day, with their school blazer.

A [Consent letter 2024-25](#) and the following documents [Teenage 3 in 1 booster leaflet](#), [Meningitis ACWY leaflet](#), and [Leaflet for Secondary School Vaccinations](#) were sent to Year 9 parents/carers on 7 January and 4 February 2025.

Any queries or questions should be raised with the immunisation team westschoolimms@berkshire.nhs.uk.

[Return to contents](#)

RHODIUM READING CHALLENGE CHAMPIONS:

Two more St Bart's students will be added to the honour roll of those to complete the St Bart's Rhodium Reading Challenge.

Year 8 students Alice and Jacob have each read at least 57 books across the five challenges in order to complete the final award in the school's Reading Challenge. In recognition of their achievement and this impressive dedication to reading, both were congratulated by Dr Fitter, Headteacher, Mr Matthias, English Teacher, and Mrs Hewetson, St Bart's Librarian, who said *"We are so proud of their achievement and their fantastic reading efforts, which will reap benefits as they carry on through their school careers. We know they are keen readers who will continue to challenge themselves with new books"*. Both were awarded with a hamper of goodies to enjoy, including their rare Rhodium Badge to be worn with pride.

Congratulations to Year 8 students Alice and Jacob!

[Return to contents](#)

PE

Year 8 Football

Well done to the 28 Year 8 students who represented St Bart's against Kennet on Tuesday afternoon. The first half of the match was the West Berkshire league fixture where St Bart's won 4-0. The second half was a friendly, which allowed 10 students that have never represented the school before to play in a competitive match. Special shout out to Jack, Oscar, Euan, Arthur, Jake and Dan who all played for Kennet due to them not having enough players. Also, thank you for Adam who stepped in to play as our goalkeeper in the first half. Well done to all involved.

Year 7 Netball

The sun was shining for the Year 7 fixtures this time! The A team just had one match this week, and with a strong squad of 10, the girls were brilliant at sharing court time and played so well together no matter what combination was on court. Katie P was awarded Player of the Match for her strong defence, stopping Trinity School getting anywhere near the goal circle and Tilly C was awarded attacking Player of the Match for her great positioning and shooting skills. Final score was 8-2 to St Bart's.

The B team played Trinity B and secured another great win, they came out strong

scoring 5 goals to Trinity's 1 in the first half. Defence worked hard in the second half keeping a clean sheet, final score 6-1. Player of the Match was Emily for scoring 5 goals. Special mention to Izzy and Ella B for their great defensive work.

Next up was Theale. Bart's found it difficult to play them as they were undisciplined, and the game couldn't flow. Ella B, Ella W and Rose really stood out trying to get the ball to goal. Summer was awarded Player of the Match for her versatility in the game shining at GA and GD, final score was 2-1 to Theale.

Year 11 Netball

The Year 11s just had one team this week because of school trips, they played Kennet School A team in the sunshine. Kennet came out strong and turned over Bart's first centre pass. It took a little while for Bart's to settle with a different line up, but they soon found their form. The last 5 minutes of the game went goal for goal in a very tense game, the final whistle went just as the ball made it into the Bart's shooting circle, leaving the score 10-9 to Kennet.

Thank you to Hazel and Katie from Year 10 for helping out, Grace was awarded Player of the Match for her great shooting and bringing the ball down the court. A fun competitive game between friends and club teammates, well done everyone.
